A public hearing was called so that any one could come and talk about concerns or questions about the ordinance, Dakota County wrote the ordinance guide lines. There were questions asked if the township could write there own guide lines and the township can write there own but it would not be cost effective for the township to do that, also discussed was that there is a lot of information in this ordinance. Also discussed was that surrounding townships around Hampton township have decided to adopt the ordinance. After all the discussion about the Water Resources Management Ordinance the planning commission made a motion recommending Board of Supervisors approval. The planning commission unanimously approved.
