Hastings, MN 55033  
651-437-8901**

Tom was inquiring about his parents John and Alonza Raways homestead property that is currently 113.23 acres, Section 10. They would like to take it and split it into 2 pieces. There are 2 houses on the current property. The Raway house sits on 1.72 acres and they would split that leaving 112 acres to be agricultural land. As of right now they are not interested in whether or not they can put another house on the property. New septic is being done to the original home that sits on the 1.72 acres. The planning commission said there are no decisions to be made and they see that this wouldn't be a problem if they decided to do the split.
